ÁLEX MÉNDEZ

PRODUCT DESIGNER · DESIGN ENGINEER

amendez83@gmail.com · +34 690 006 565 · linkedin.com/in/amendez83 · amendez83.github.io/resume/

Product Designer specialized in Design Systems & Design Engineering for SaaS platforms

Product Designer & Design Engineer specializing in scalable design systems and high-impact SaaS. With over 12 years of experience in fintech, I bridge the gap between design strategy and technical execution through token architecture and design-to-code workflows—ensuring scalability, accessibility, and development efficiency.

Selected Achievements

- **Efficiency:** Reduced design-to-development handoff by 40% at Ria through a custom design system and token architecture.
- **Scalability:** Built and governed a 3-layer token system and 60+ components for Openbank (Santander Group).
- **Optimization:** Identified and removed ~30% of low-value components using UI analytics to streamline the roadmap.
- **Accessibility:** Established WCAG 2.1 AA as the global accessibility baseline for B2B SaaS platforms.

Experience

Mar 2023 – Present

Ria Money Transfer · Euronet

Lead Product Designer · Mar 2023 – Present

- Led design of a global B2B SaaS platform (160+ countries).
- Built and scaled the design system (tokens, components, governance).
- Established WCAG 2.1 AA accessibility standards across components.
- Improved design-to-code alignment with front-end teams.
- Drove cross-functional collaboration across product, design, and engineering.

Senior UX/UI Designer · May 2022 – Feb 2023

- Redesigned core transaction flows improving usability and task efficiency.
- Scaled Figma adoption and reusable component libraries across teams.

Apr 2020 – May 2022

Openbank · Santander Group

Design System Specialist + UI Analytics Sr. Analyst

- Built and maintained a full design system for a leading digital bank.
- Defined 3-layer token architecture and 60+ documented components.
- Achieved design-to-code parity working closely with React teams.
- Introduced UI analytics to optimize component usage and roadmap decisions.
- Led federated governance across multiple product squads.

Nov 2016 – Apr 2020

Globant

Senior User Interface Designer

- Designed enterprise digital products (apps, dashboards, platforms).
- Led UX flows, prototyping, and design delivery.
- Mentored junior designers and improved design quality.

Feb 2012 – Nov 2016

ZED Worldwide

UI & UX Designer

- Designed mobile and web products across multiple verticals.
- Conducted research, wireframing, and high-fidelity prototyping.

Skills

Design Systems *Token Architecture, Component Libraries, Multi-brand Governance, Documentation.*

Product Design (UX/UI) *User Research, IA, Interaction Design, High-fidelity Prototyping, Discovery.*

Design Engineering *HTML/CSS, Style Dictionary, Design Tokens, React Collaboration, WCAG 2.1 AA.*

Tools

Figma

Tokens Studio

Storybook

Adobe CC

Sketch

Education

Advanced Digital Product Design *MrMarcel School (2022–23)*

UX Research & Strategy *Redbility (2019)*

Scrum Certification *LinkedIn Learning (2019)*

Web Design & Digital Art *Instituto Cibernos*
